

### COMPOUND INTEREST GAME

**Instructions:** Let kids guide their money through the maze to grow it as much as possible by the end!

#### What you will need:

1. A coin
2. 1x Dice
3. Pen
4. Paper

**Your coin is worth £100 at the start. Calculate the total when you get to the finish line**

+ "Add 10% interest- move ahead 1 space"

✗ Spent your money go back 2 spaces

🚀 Reinvested interest (Add 20%) - Jump ahead 3 spaces

#### Percentage equation

Divide the percentage by 100

Multiply by the amount

$$10\% \text{ of } 100 = (10 / 100) \times 100$$
