

## **MONEY F.I.T STOCK TRACKER for Kids**

Welcome to your My First Stock Tracker.

This is your special place to keep an eye on the shares in companies you own!

### **TIPS!**

1. Remember to pick a company that you know and like! It could be one that makes your favourite game or snacks. Think about why you like the company.
2. Add how many shares you bought and the price you paid
3. Watch the numbers change! Remember to keep an eye on the latest price and how much your shares are worth today.
4. Write notes each week.

Maybe the company launched something new or you heard news about them. Ask yourself, why did the price change? What did I learn?

### Business Tracker

Name:

CompanyName	What does the company do?	Why did I Pick it?	Date Bought	Number of Shares	Price per Share {£/\$}	Total Cost

### Stock Tracker

Week	Date	Price per Share {£/\$}	Value of my Shares	Notes
